FOSTER-MILBURN Co., Buffalo, N. Y. YORKTOWN, ARK., March I, 1904. Gentlemen:-I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic; we meet with many and various abnormal conditions of the human family, prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uraemic or chronic acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or conges-

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed-shock to the nervous system averted, and natural health restored.

I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

THOS. ORELL, Bear, Ark., age 60.

Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and padoph, and Doan's Kidney Pills. After taking four bexes of the pills, patient up and enjoying good health for one of his age.

MRS. SMITH, Tarry, Ark., age 29, mother of four children. Had female complaint and kidney trouble, marifest by pain in back and urine irregular; sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and preserthed Doan's Pills; after using six boxes she regards herself as cured.

BROWN EAKS, Wynne, Ark., age 21. Had severe case of malarial hoemataria or swamp fever. Gave necessary liver medicine, calomel and padoph, and morph. sulph., to relieve pain, and ordered Doan's Pilis for the high state of congestion and inflammation of the kidneys. Recovery resulted in two weeks. Prescribed Doan's Kidney Pilis, to be continued until the kidneys were thoroughly strengthened and all pain in back subsided.

ELIJAH ELLIOTT, Tarry, Ark., age 34. Pain in back and legs and headache. Urle-acid poisoning. Prescribed Doan's Kidney Pills. After taking several boxes pain subsided—urlne became normal, or natural, and patient able to resume his work.

These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated. I believe that by the judicious use of Doan's Pills many serious complica-

tion; are arrested and many hopeless and incurable cases of Bright's disease pre-I have often found that one box of the pills is all that is required to effect a

cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent.

A free trial of this great Kidney and Bladder Specific can be obtained by addressing Foster-Milburn Co., Buffalo, N. Y. The regular size is 50 cents per box. If not for sale by your druggist or dealer, will be sent by mail, charges prepaid, on receipt of price.

Billion Pollar Grass. When we introduced this remarkable grass three years ago, little did we dream it would be the most talked of grass in merica, the biggest, quick, hay pro-ucer on earth, but this has come to pass. Agr. Editors wrote about it., Agr. College Professors lectured about it. Agr. Institute Orators talked about it, while in the farm home by the quiet fireside, in the corner grocery, in the village post-office, at the creamery, at the depot, in affice, at the creamery, at the depot, in fact wherever farmers gathered, Salzer's Billion Dollar Grass, that wonderful grass, good for 5 to 14 tons per acre, and lots of pasture besides, is always a theme worthy of the farmer's voice.

Then comes Bromus Incrmis, than which there is no better grass or better permanent hay producer on earth. Grows wherever soil is found. Then the farmer et alks about Salzer's Teosinte, which will produce 100 stocks from one kernel of seed. 11 feet high, in 100 days, rich in nutration and greedily eaten by cattle, bogs, etc., and is good for 80 tons of green food per acre.

Victoria Rape, which can be grown at 25c a ton, and Speltz at 20c a bushel, both great food for cattle, also come in for their share in the discussion.

Suicides Become More Numerous the Years Pass Away. Suicide is still on the increase in New York City. According to statis-

Russian

From the figures obtained by Dr. Guilfoy the death rate from self-destruction has increased in the two bor- all the business affairs of the country. oughs of Manhattan and the Bronx from 14 to each 100,000 inhabitants in 1892 to 22 to each 100,000 in 1902.

New York is now fifth in the suicide py St. Louis, with a death rate of 25.7. Carbolic acid is still the most popuar medium for New Yorkers who choose to end their earthly existence. Gun shots are second in favor, gas comes next, while paris green is the drug least often resorted to.

In the borough of Manhattan last rear there were 429 suicides; in Brooklyn, 242; in the Bronx, 48; in Queens, 36, and in Richmond, 17. Men to the number of 169 chose

shooting as the means of ending life. Seven women resorted to this method. Eighty-one persons hanged themselves, 77 men and 41 women resorted to gas, while 176 men and 92 women took carbolic acid.

One of the remarkable features rerealed by the registrar's figures is that suicides of women are more numerous than those of men between the ages of 10 and 25 years. Death by shooting is not a favorite

method of women, but more American vomen resorted to that means than foreign born. Women bent upon selfdestruction, however, display a predilection for death by poisons. Following is a table of the nation-

ality of New York suicides in 1902:

Germany159 Russia 17 England 10 Dr. Guilfoy says that, contrary to

popular belief, Italians do not resort to the knife in self-destruction. In the years from 1897 to 1902 only seven Italian suicides by the knife were recorded. The Most Common Disease.

Yorktown, Ark., Feb. 29th.—Leland Williamson, M. D., a successful and "There is scarcely another form of disease a physician is called upon so often to treat as Kidney Disease. I invariably prescribe Dodd's Kidney Pills and am not disappointed in their effect, for they are always reliable. I could mention many cases in which I have used this medicine with splendid success; for example, I might refer to the

"Age 31, greatly emaciated, some fever, great pain and pressure over region of Kidneys, urine filled with pus or corruption and very foul smelling and passed some blood. Directed to drink a great deal of water, gave brisk purgative and Dodd's Kidney Pills. The pills were continued regularly for three weeks, especially if patient felt any pain in region of Kidneys. Cured completely and patient performed his completely and patient performed his duties as farm laborer in four weeks." Dr. Williamson has been a regular practitioner for over twenty years and his unqualified endorsement of Dodd's Kidney Pills is certainly a wonderfu tribute to this remedy.

Never Reen Practiced On. "I wonder why it is they always call the doctor's business a practice?" "Ha! I see what it is! You've never een under one!"-Exchange.

Catarrh Cannot He Cured
with LOCAL APPLICATIONS, as they cannot
reach the seat of the disease. Catarrh is a blood
or constitutional disease, and in order to cure it
you must take internal remedies. Hall's Catarrh
Cure is taken internally, and acts directly on the

ONE-LEGGED MEN.

Are More Numerous Than Supposed in All Walks of Life. "Have you ever thought about the

one-legged man, how numerous he is, tics compiled by Dr. William H. Guil- what he does for a livelihood?" asked foy, registrar of the bureau of vital an observant man. "Well, I suppose statistics in the health department, you have without paying much attenthere were 772 suicides in this city in tion to what you were thinking about. 1902, of which number 477 were in You will find many men who are thus the boroughs of Manhattan and the afflicted quite as well off in the affairs Bronx, says the New York Herald. of the world as men who still retain The number of suicides in those two both of their lower limbs. Many of poroughs ten years ago was only 241. the brave soldiers who took part in the American women lead in the list of little skirmish of the '60s left the fightwomen suicides. Native born women ing with one leg, or they were woundto the number of 73 killed themselves | ed in such a way that they lost the in this city last year. There were al- limb afterward because amputation betogether 196 women suicides, of which came necessary. Frequently this con-33 were Irish, 26 Germans and 19 dition confronted the wounded soldier many years after the war. So there are many one-legged men who are prominent in all the professions and in

"But I was thinking of another class

of men, men who are not, for one reason and another, fitted for the more responsible positions in life, the class list of American cities, which is led of men who perforce fall into the most convenient grooves for the aims and responsibilities which beset them. He is a bootblack now and then, and we find him lounging on the corner, waiting for some good customer who will give him the usual allowance for a shine. Sometimes we will find him at other things which do not require too much 'leg work,' as the saying goes. But I had in mind a still more curious fact in connection with the calling of the one-legged man. Did you know that fully 90 per cent of the railroad flagmen in the United States are one legged men? Did you know that fully 90 per cent of the men who sweep out the grooves, and who grease them, at the curves on street rallway lines are one-legged men? It is a fact, whether you know it or not, and a little closes observation will convince you of it So you find the one-legged man at crossing of the roads, and your life is often in his hands. If he naps he may whist your candle out. Or if he should give a false signal for some reason something might happen to a whole train load of people. So true is it that the one-legged man is the flagman in all the plays where it has been neces sary to introduce him, the flagman is one-legged. The verdict of the stage is not always good, but in this respect I am inclined to think that no mistake has been made. So, after all, the one legged man plays an important and responsible part in the affairs of the

world.-New Orleans Times-Democrat Work for the Blind. I. Martiguon urges the adoption of massage by the blind, citing the example of the Japanese, among whom it is practiced almost entirely by persons thus afflicted. Sight is not necessary for effectual work in this line, providing the operator be familiar with the muscular system and knows the art of massage thoroughly. Sweden, Switzerland, and Belgium are following the examples of Japan in this respect, and the author describes a class meeting held in Brussels by Professor G. Daniel for the instruction of about a dozen blind persons. Four theoretical lessons are given at the beginning of the course as to the value of massage and its application. The fifth lesson is devoted to the study of the skeleton, the sixth and seventh to the muscles which move the various portions of the body. Each pupil palpates the muscles on s human subject. The following lesthen admitted to practice in the clinic

ward enabled to earn their living. The Signs Falled. Phil Thompson was asked by some friends to see a lady of the party home from the Waldorf. He had somehov falled to catch her name. He was. therefore, uncertain as to whether she was a wife, widow or bachelor maid, 'However, reckless of consequences, he

and perfect themselves in the vocation

by means of which they are after

at length ventured upon this remark: "I see," said he, "from the way you put on your cloak and attempt to catch step with me, instead of allowing me to catch step with you, that you are a bacheior maid, and, consequently independent of the assistance of men.' "On the contrary," the lady replied, 'you should at once recognize by these various signs and tokens that I am a married woman, and one not long past the honeymoon with a second husband at that."

Not to Be Outdone. A note of family pride was struck in the conversation between three small boys the other day. The parts played by their respective grandfathers in the civil war were being depicted by two of the boys in vivid colors. The career of each, it seemed. had been halted by confinement in Southern prisons, and it was on the latter fact that the lads laid particular stress. The third youth, unable to match these recitals with any military achievement of his own forbears. preserved an envious silence for a while, and then, not to be outdone, said disparagingly: "What, that's not so much. My Uncle Bill was in jail a long time and he was never in the army at all."

Friendly Advice. "I'd advise you to take this poem to a chiropodist," said the editor in a kindly

"Because why?" queried he of the un-"It's feet need attention," replied the editor.

DOCTOR'S CUFFEE

And His Daughter Matched Him. Coffee drinking troubled the family of a physician of Grafton, W. Va., who describes the situation briefly:

"Having suffered quite a while from vertigo, palpitation of the heart and many other derangements of the nervons system and finding no relief from usual methods of treatment, I thought to see how much there was in the Postum argument against coffee.

"So I resorted to Postum, cutting off the coffee, and to my surprise and satisfaction have found entire relief from all my sufferings, proving conclusively the baneful effect of coffee and the way to be rid of it.

"I have found Postum completely takes the place of coffee both in flavor and in taste. It is becoming more popular every day with many of our people and is having great demand here. "My daughter, Mrs. Long, has been

sufferer for a long time from attacks of acute indigestion. By the dismissal of coffee and using Postum in its place the has obtained complete relief. "I have also heard from many others the have used your Postum very fa-

vorable accounts of its good effects. "I prescribe Postum in place of coffee in a great many cases and I believe that upon its merits Postum will come into general use." Name given by Postum Co., Battle Creek, Mich.

OCCURRENCES DURING THE PAST WEEK.

An Interesting Summary of the More Important Doings of Our Neighbors-Weddings and Deaths-Crimes, Casualties and General Buckeys News Notes.

Ohio Legislature

While busy politically, the General Asembly did but little in a business way Monday. The House did abs lutely nothing. The session of the Senate was short, but full of meat. The bill to abolish spring elections was introduced by Senaor Chapman. Senator Harris introduced a bill to appropriate \$4,251,000 for the support of the common schools of the State. The bill provides that this sum shall be apportioned to school districts on a basis of \$1.70 annually for each school youth enumerated.

Senator Ricketts presented a bill which changes the law as applicable to Sinking Fund Trustees. The bill amends the municipal code so that these Trustees will have charge of all funds of a municipality. It gives them authority to borrow money on the strength of a special assessment and is aimed to generally economize in sinking fund lines.

Separate bailots will be taken in the House and Senate of the Ohio legislature at noon on Iuesday, March I, for the ection of a successor to the late Senator Marcus A. Hanna and a joint session will be held at noon Wednesday to declare the result. This is provided in a joint resolution introduced and adopted in the Senate after a message containing official notification of the death of Senator Hanns had been received by the legislature. The resolution did not reach the House before adjournment but its ratification by that body is regarded as certain.

Minor State News. August Steen, 35 years old a car inspector, was cut in two by a B. & O. train

Louis Grieve was instantly killed by being hurled from the rear end of a Dayton & Northern car at Dayton. Lewis Holland, 28, married, an engine epairer, was run over by a switch en-

gine in the Erie yards at Marion, and mortally injured. Charles Weaver of Toledo, went to sleep in the Big Four sand house, at Bellefontaine, and hot sand dumped in apon him frightfully burned him so that

he may not recover. Joseph G. Uhl, aged 82 years, was gored o death by an infuriated bull on the farm of his son, south of Dayton. He was too feeble to defend himself and was dead

before assistance arrived. Coshocton is to have two new church edifices this year. The Presbyterian church has decided to erect a new stone church, large and modern, at a cost of from \$30,000 to \$40,000. The Church of Christ will have a \$20,000 edifice.

Wilhelmena Yenke was struct by Columbus, London & Springfield traction car at Springfield, and died shortly afterward at the city hospital. She was walking along the track and disregarded the air whistle. The motorman was unable to stop the car in time to prevent striking

Prominent Republican organizations and individuals of Cleveland, have already taken up the proposition of erecting a memorial to the late Senator Hanna in that city. Two committees have already been appointed to push the matter and more definite action is expected within a few days.

The high school teachers of the state are planning an association to remedy evils in high school courses. A preliminsons concern massage itself, and are ary meeting was held at Columbus, recontinued until the pupils are individu cently, the call for which was signed by ally well versed in the art. They are T. E. McKinnen, Marietta; G. B. Hallstead, Kenyon; C. E. Corwin, Zanesville: C. S. Howe, Cleveland; Prof. William Hoover, Athens, and Prof. Thompson,

A club has been formed by prominent sportsmen in the vicinity of Youngstown, for the purpose of leasing a large game preserve in Mahoning county. Several hundred acres have been secured under option, which will be stocked with quall Wardens will be employed to keep off poachers and to protect the game from

dogs and birds of prey. Near the close of the evening services at the Methodist Episcopal church, in Groveport, a large coal oil chandelier. suspended from the ceiling, fell, scattering burning oil all over the building. The congregation rushed panic-stricken for the entrance and two of the women, Mrs. Dongherty and Mrs. Mansfield, were thrown down and trampled upon, susaining serious injuries. Several others were slightly bruised in the crush.

Mrs. Hively, an aged woman, was ourned to death in her home at Edgerton. The house she was living in caught fire late in the night from a defective fine She was first to awake and alarmed the other occupants of the house. All escaped, but she returned to her room to secure some valuables and before she could escape the roof fell in on her. The house is a total ruin. Mrs. Hively was eighty years of age. The charred bones of her body were found next morning.

Hugh K. Huntington, a patient at the State Insane Asylum, Columbus, was choked to death by another patient, Anthony Kirschenmeyer. The men occupied the same room. Neither of the patients was supposed to be dangerons. The dead man was 57 years of age, and had been at the institution about a year. Kirschenmeyer was affi cted with a religious mania and had been at the hospital two years. He is 27 years old. He says his roommate attacked him, and that he acted in selflefence. The hospital authorities believe

his story. L. H. Adams, an employe of the Cin-cinnati, Hamilton & Dayton railroad, was prob bly fatally injured, by falling from a bridge at Ottawa. His skull was fractured and it is feared he has sustained internal injuries of a serious na-

A fire built in a range while the water onnections were frozen, caused an explosion which completely wrecked the nome of James Kerr, in Niles. The stove was blown through the ceiling and the furniture through the sides of the house. Both Kerr and his wife had miraculous escapes from death.

Mrs. John Bogan of Whitehouse, left her two children alone for a few moments. Returning, she discovered that the clothing of the one, a little girl fifteen months old, was ablaze. She put the fire out, but the child was burned so badly it will probably die. The children had been near the range with some cloths, which eaught fire.

Two boys, Edward and Charles Kintner, while going to I a ance to attend the telegraph school, found a broken rail on the Wabash Railroad. One stood guard while the other ran a mile to the lepot, arriving there just ten minutes before the fast train was due. The train was held until the break was repaired. The Board of Trustees of the Ohio Sol-

diers' and Sailors' Orphans' Home at its ast meeting elected Col. J. W. B. Cline of Springfield, as Commandant of the Home. Colonel Cline will take charge June 1. He has an enviable record in Grand Army circles, and was a close riend of former Governor Bushnell. Mr. and Mrs. James Gossard, of near Waynfield, will have been married 55 ears on March 13, and will celebrate their wedd ng anniversary, according to heir annual custom. Most of their children and grandchildren, of this and other

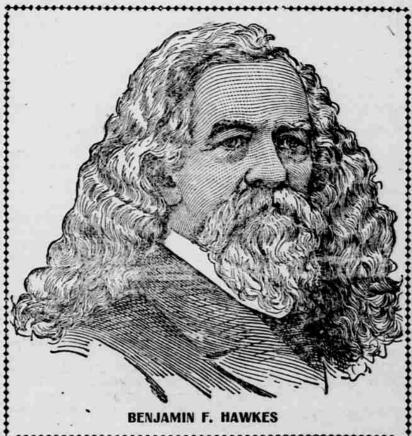

tates, will be present. Mr. Gossard cele-

rated his eightieth birthday on the 12th

of tais month.

INTERESTING TO AMERICANS. Western Canada Will Soon Become the Supply Depot for Wheat for Great

During the past year about 50,000 Americans went from the United States to Canada. Most of these settled upon farm lands, and the write is informed by agents of the Canadian severe pain. It is sold in drug stores as Government that the greatest success Dr. Bayer's Penetrating Oil in 25c. and has followed the efforts of nearly all. 50c. bottles and warranted to cure or ro their friends on this side of the ary line the ful

given of the prosperity that is in store for them. There will always be a splendid market for all the grain, cattle and other produce that can be raised in Western Canada, and with Brushe-No, but the fact that he the advantages offered of a free homestead of 160 acres of land, and other lands which may be bought cheaply. an excellent climate, splendid school system, educational advantages of the best, what more is required? The husbandman gets more return for his

money than in any other country in the world. On the occasion of Sir Wilfred Laurier's visit to the Corn Exchange, London, England, Colonel Montgomery, V. D., made several important statements. "The function (he said) which you have just been assisting in connection with a kindred association has doubtless shown you the importance of the provision trade of Liverpool in its relationship with the Dominion and the enormous possibilities of the future development of that trade. Well, the grain trade of Liverpool has interests to the folks out west, consuit Wabash Tickot Agents. you have just been assisting in conwith Canada no less important than those of the provision trade. When it tickets is borne in mind that 80 per cent of the breadstuffs of this great country has to be brought from abroad, you will readily appreciate with what great satisfaction we view the large and steadily increasing supplies of grain which are annually available for export from Canada, and I challenge contradiction when I say that of the wheats we import from Russia, India,

the Pacific and the length and breadth of the United States, none gives more general satisfaction, none is more gen erally appreciated, than that raised in the Province of Manitoba. We cannot get enough of it, and it is no exaggeration to say that there are before us dozens of millers who hunger for it. This is not the time to enter into statistical questions, but we look forward with confidence to the time at which, with the present rate of progress, the Dominion of Canada will have a sufficient surplus of wheat to render this country independent of other sources of supply. I think I may, with justifiable pride, remind you that this is the chief grain market of the British Empire, and through its

it is now the second milling center in the world." Send to any authorized Canadian Government Agent for copy of Atlas and information as to railway rate,

Capsicum Vaseline

Put Up in Collapsible Tubes.

A Substitute for and Superior to Mustard or any other plaster, and will not blister the most delicate skin. The pain allaring and curative qualities of this article are wonderful. It will stop the toothashe at once, and relieve headache and sciatics.

We recommend it as the best and ashest external counter-irritant known, also as an external remedy for pains in the chest and stomach and all rheumatic, assurable and goury compaints. A trial will prove what we claim for it, and it will be fetual to be invaluable in the household. Many people as: "It is the best of all your preparations."

Trice if centra, at all druggists, or other dealers, or by sending thus genome.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of

Old Age. In old age the mucous membranes be-come thickened and partly lose their function. This leads to partial loss of hearing smell and taste, as well as digestive dis

smell and taste, as well as digestive disturbances.

Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Peruna becomes a lifelong stand-by with old and young.

Mrs. F. E. Little, Tolona, Ill., writes:

"I can recommend Peruna as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and also a cough. Now my

over a year, and also a cough. Now my cough is all gone, and all the distressing cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellowstone Park this coming season. How is that for one 71 years old?"

In a later letter she says: "I am only too thankfu! to you for your kind advice and for the good health that I am enjoying wholly from the use of your Peruna. Have been out to the Yellowstone National Park and many other places of the West, and shall always thank you for your generosity."—Mrs. F. E. Little.

Strong and Vigorous at the Ace of

Benjamin F, Hawkes, of Washington, D. C., is one of the Three Living Comrades of General Grant in his Cadet Days at West Point.

In a recent letter from 611 G st., S. W., Washington, D. C., this week come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first because of la grippe first point in the land given Peruna." "When epidemics of la grippe first point in the land given Peruna in our family for a number of relief until I had given Peruna in our family for a number of years and looks about your remedies. Then I wrote to caterrh and country, Texas, has lived for 11st years. In speaking of his good apetite and extreme old age, Mr. Brock ays:

"BAAC BROCK, a citizen of McLernan country, Texas, has lived for 11st years. In speaking of his good apetith and extreme old age, Mr. Brock ays:

"BAAC BROCK, a citizen of McLernan country, Texas, has lived for 11st years. In speaking of his good apetith and extreme old age, Mr. Brock ays:

"Peruna exactly meets all my requirements. It protects me from the evil effects of unden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I
